RE: 1:1 Match of College Dependents Scholarship Program

Since at least 2001, the Department of Computer Science has provided a 1:1 match to the College of Engineering's *Undergraduate Engineering Students/Dependents Staff & Faculty Scholarship* program for eligible faculty and staff within the department. This departmental match will continue as long as the college scholarship program remains in effect.

To be eligible for this assistance, the employee must hold a full-time (0.9 FTE or greater), benefits-eligible position within the Department of Computer Science.
